

Technical Data Sheet

NITRAFLEX™ CR KB10-36

DESCRIPTION

- Industrial protective glove.
- Synthetic textile liner **gauge 18** with a synthetic coating based nitrile foam
- Elasticated knit wrist for snug fit.
- 5 sizes available: 7, 8, 9, 10 and 11
- Trade unit 12 pairs, 144 pairs in a transit case.

CHARACTERISTICS

- Seamless knitted glove, made from high performance fibers black Kevlar^(r), including Stainless steel wire and polyamide with Spandex[®]. **Patented knitted technology**
- Glass-free glove
- Specially formulated black water based synthetic nitrile foam palm fit coating, reduces finger rigidity and allows less tiring.
- Elasticated knit wrist with elastic bead to ensure best snug-fit.
- DMF-free.

PERFORMANCES

- Excellent comfort and dexterity thanks to ithe yarn and knitting gauge machine used **Knitted process patented grants fresh feeling on the hands while working**
- Highest level of cut protection (level E ISO/CUT)) and excellent abrasion results (4).
- Water based process environmentally friendly
- In compliance with the standards EN420 (General requirements) and EN388:2016 (Mechanical Hazards) by CE authorized laboratory.

APPLICATIONS

- Ideal for use in automotive and electrical appliances, engineering applications, in presence of moderate oily environment. Metal waste recovery centers.
- For handlings needing a very good protection against cuts.

LIMITATIONS

- Do not use for full liquid immersion.
- Do not use with rotating machines in which the glove may get caught.

This glove is certified to comply with the essential safety requirements of the regulation (EU)2016/425 relative to Personal Protective Equipment submitted to CE type examination issue by a notified laboratory which certifies the conformity of this glove with the EN standards to which it responds and certifies the performance levels obtained during the tests
