

Technical Data Sheet

NITRAFLEX™ 80-240

DESCRIPTION

- Industrial protective glove.
- Blend textile liner **gauge 13** with a synthetic coating based Neoprene coating
- Elasticated knit wrist for snug fit.
- 4 sizes available: 7, 8, 9 and 10.

CHARACTERISTICS

- Seamless knitted glove, made from high performances Kevlar® fibers , Modacrylic and glass core covered with polyamide Spandex®
- Specially formulated 100% Neoprene black coating palm fit coating design, reduces fingerrigidity and allows less tiring.
- Elasticated knitwrist with elastic bead to ensure best snug-fit.
- DMF-free.

PERFORMANCES

- Excellent comfort and dexterity thanks to the yarn composition. Unique liner structure grants fresh feeling on the hands while working
- Very good level of cut protection (level C ISO/EN CUT) and good abrasion level 3
- Waterbased process environmentally friendly
- Incompliance with the standards EN420 (General requirements) and EN388 (Mechanical Hazards) by CE authorized laboratory.
- Very good for heat contact protection level 3 (15s at 350°C) testing and flammability rate following EN407

APPLICATIONS

- Ideal for use for machinery and equipment , maintenance and welding operation
- For handlings needing a very good protection against cuts, and thermal protection

LIMITATIONS

- Do not use for full liquid immersion.
- Do not use with rotating machines in which the glove may get caught.

This glove is certified to comply with the essential safety requirements of the regulation (EU) 2016/425 relative to Personal Protective Equipment submitted to CE type examination issue by a notified Laboratory which certifies the conformity of this glove with the EN standards to which it responds and certifies the performance levels obtained during the tests
